WOMEN ARE CAUGHT M ALLURING NET OF DEPOSED SEER

"Goldfish" In Leon de Voux's Catch Squirm With Ordinary "Succors."

DAMAGING LETTERS ARE HELD BY POLICE

Rich Harvest Reaped By Self-Styled Sorcerer In Capital, Authorities Say.

When Leon De Voux, self-styled sorcerer, mystic and seer, threw his net in Washington, he captured "suckers" and "sheepheads" aplenty-and some

The goldfish-men wealth and social standing in Washington-today are squirming.

Having foolishly confided details of their domestic infelicity to paper, and intrusted the paper to the seer, the poor goldfish who were unwary enough to be caught by the supposed efficacy of a charm composed of a lock of hair, and some ashes in a chamois bag, are having some very unhappy moments. Letters Guarded.

The police have the letters. They are being guarded very closely, however Still it is unpleasant, the goldfish think, to even surmise what the result would be if these letters were made public.

Singly and without knowledge that some of their friends had appealed to De Voux, who was arrested yesterday and this morning taken to Police Court, where the charge of larceny by trick was continued, these prominent men Divorce Suit Asks for and women wrote to the sorcerer to aid

These letters singly meant nothing Collectively, they form a very menacing document. De Voux was taken into custody

WELLMAN RESCUED AT SEA, WITH CREW AND MASCOT CAT

Disabled Airship Is Abandoned When Bermuda Liner Comes to Aid of Aeronauts Who Started for

ALMOST DUE EAST OF CAPE HATTERAS

Royal Mail Steamer Trent, Captain Downs, Reports Finding of Helpless Aerial Navigators - Expected to Arrive In New York Tomorrow.

NEW YORK, Oct. 18 .- A wireless dispatch from the Royal Mail steamer Trent, Bermuda to New York, received here this afternoon of the dirigible balloon America.

The following wireless dispatch to the officials of the company was received from Captain Downs this afternoon: "At 5 a. m. today, sighted Wellman's airship America

"Signaled by Morse code that she required assistance and help. After three hours of maneuvering and fresh winds blowing, got Wellman with his entire crew and cat.

"They are all now safe on board. All are well. The America was abandoned in latitude 35.43 north, longitude

Captain Downs later notified his company that the Trent would arrive in New York tomorrow. According to the description given by him of the disaster to the airship she was abandoned about 250 miles north by east of Cape

The news of the rescue came to this bureaus have reported mild weather off city on the heels of a report from the the Atlantic seaboard, with the exception of an electric storm off Sable Island, 100 miles off the Nova Scotia tors had succeeded in reaching Sable c

the airship was picked up is about half way between Bermuda and Cape Hatteras, showing the airship had been blown far out of its course since reported off Nantucket on Sunday.

From 12:45 p. m. Sunday until Captain Downs' message was received showly after noon in the same and off the Sable island electrical storm and was wrecked in a tempest of lightning and was w This report, however, was believed to

tain Downs' message was received shortly after noon today the Atlantic had been swept from wireless stations along the coast. The America was last o'clock Sunday afternoon Wireless Operator Ginn, in the Marconi Company's station at Siasconset, sent a query directed to the America, asking if all on Oct. 18.—Fine and hot here today, just the weather for baseball and things with straws in them. Everybody with the price is taking both.

Shiffle PARK, PHILADELPHIA, board were well. The reply, very feeble and indistinct, came back. It consisted of the single word, "Yes." It was then estimated that the America was 100 to 200 miles east of the Massachusetts.

were working on the America today indicated that the balloon has been faquiring for help through the agency of her wireless, although experts thought that probably Operator Jack Irwin husbanded the precious electric "juice" and did not send calls for help except at long intervals.

The weather off the coast all along the Atlantic scaboard has been foggy, and it is considered probable that Weilman did not know exactly where he was drifting.

Trophy Reported Headed for Canada.

Having left Atlantic City at 8:03 o'clock Sunday morning, it was almost three days that the crew were aloft. Captain Down stated that he first sighted the America at 5 a. m. today, although the balloon was maneuvering in wind currents for three hours before the men were taken off.

The old record for continuous flight was made on May 31, 1908, by Count Zeppelin, who remained aloft for thirty-seven hours. Wellman nearly doubled this.

were heard from early today.

One of the big gas bags, the Million

land six miles north of Racine, Wis. lieved, was afraid to cross the lake Alfred Le Blanc's French balloon passed over Zion City, Ill., at 6:30 note saying that all was well.

Five balloons were sighted over Mil-

waukee. They were sailing at a height of about 2,000 feet. Balloon experts here said today that

Balloon experts here said today that the course taken by the balloons was the best that could have possibly been taken. After salling to the west for a short distance, the gas bags vered to the northeast, and from the location of those this morning it is evident all are bound straight for the Canadian border. Aeronauts maintain that across the lakes on the Canadian side there is a strong eastern current that will carry a balloon to the Atlantic coast. It was this route that Capt. Eugene Honeywell sought on a trial flight several months ago, and it would cause no surprise if the aeronauts strike this current and increase the long-distance flight record.

Judging from the information received it is believed Wellman has broken all dirigible balloon records.

According to Captain Downs' report the America was in the air seventy-two
